I WANT TO UNDERSTAND - Plantagenet -July 16, 2012

According to Zoning by-law of the Township of Alfred-Plantagenet, the said property on the north side of County Rd. 17 is zoned "Rural-Exception 25 (RU-25)". This zoning category "Rural" means that a single family dwelling can be built, a hobby farm operated and farming done. "Exception 25(RU-25)" means that there can be no entrance/exit on Rd. 17 from this lot; the United Counties do not want to multiply the number of entrances on Rd. 17. Up to now, I understand very well.

But... I fail to understand when an important company, when business people supposedly serious and intelligent want to install an asphalt plant on such a property disregarding the surrounding community. Will the lure of gain, the desire to make a fast buck prevail over the peace and well-being of a whole community?

I am strongly opposed to the municipality amending the zoning by-law that would allow the construction of an asphalt plant on the said property.
